DOB: 8/1/1994

EDUCATION

B.A in General Electrical Engineering at University of Sulaimany, Class of 2017.

EXPERIENCE

ICT INSTRUCTOR AT EMPACT, A PROJECT BY WFP AND THE UNIVERSITY OF SULAIMANIYA.

APRIL 2021- NOVEMBER 2021

The main responsibilities were:

- Initially participated in the field registration and selection process of the project beneficiaries mainly among Iraqi IDPs and Syrian Refugees living at camps and among host communities in Suleimanyah Governorate side by side with students from the host community.
- On the academic side, I was preparing teaching plans, as per curriculums, have been conducting ICT lessons then answering students' questions and concerns related to the course in open debates among the participants of the class.
- I had a major responsibility for monitoring the learning process, evaluation and assessing each students progress through daily, quarterly and final exams. Along with the team I worked and adopted mechanisms for motivating the beneficiaries, coaching and helping towards fulfilling the objectives of the project.

I have worked in (ADO) as an assistant General manager of Electrical Engineers. Year 2018-2019.

I have worked in (Dosty office) as a Electrical engineer for their projects in field of commercial buildings (designing Electrical diagram & implementing). Year 2019 -2020 .

I have worked in (creative builders company) as a Electrical engineer for their projects in Draw city/2 project

Self-employer : writing researches online , working as repairing software mobile & computer

Member of the Engineers Syndicate in Kurdistan from 2017 / Practitioner

SKILLS

❖ LANGUAGES:

- ❖ Kurdish mother language .
- ❖ English (excellent writing , very good speaking , very good understanding) .
- ❖ Arabic (excellent writing , excellent speaking , excellent understanding) .

❖ COMPUTER:

- ❖ Microsoft office (Word, Excel and PowerPoint) applications.
- ❖ Adobe Photoshop.
- ❖ C++
- ❖ MatLab.
- ❖ CST (computer simulation technology) .
- ❖ Electrical workbench .
- ❖ Power world simulator .
- ❖ Spss .

❖ OTHER SKILLS:

- ❖ Able and ready to work in any part of power systems.
- ❖ Designing Electrical line diagram for any building and calculating (lighting , current ..etc)
- ❖ I can choose (cable , relay , CB...etc.) for any load .
- ❖ I have ability to use (soft starter) and installing it .
- ❖ I have more information about types of transformer I can install it & all tests about it (megger test , bughluz relay .. etc)
- ❖ I have an appearance and knowledge of distribution board (MDB) & grounding system .
- ❖ I have more information about motor types working and I am able to solve any problem related to it such as (over load , short circuit , high voltage , high temperature ..)

❖ TRAININGS:

- ❖ I have participated POWER course for two months practically & theoretically in Korek Telecom co.
- ❖ Mobaile maintenance in ALFA institute .
- ❖ Plc & robotic in ADO .
- ❖ Cellular Networks (2G, 3G, LTE) in ADO .
- ❖ Biomedical Engineering in ADO.
