Sulaymaniyah/ Dilan city 2

Languages: Kurdish (native speaker), English (Very Good), Arabic (Good).

» Education

University of Sulaymaniyah / Iraq
Bachelor's degree at Electrical Engineering.
Graduation year/2017-2018

» Professional Skills

- All electrical Designs by using AutoCAD.
 - Studying & calculation of power consumption load for projects.
 - Designing Electrical Board Single Line Diagram.
 - Experienced in Cable installation (H.V, M.V) according to the requested design and load calc.
 - Technical knowledge of AC/DC power, power redundancy scenarios, UPS, and Rectifies.
 - Design and installation of low current system. (Fire alarm system, CCTV, public address, data center, access control, security system).
 - Experienced in Generator Installation, ATS, and Maintenance.
 - Experienced in installation of power station (step-up, step-down transforms, synchronization generators, switch gear)
 - Knowledge of bus duct.
 - Grounding & lightening Protection systems.
-

» Work Experience

Kurdistan Motors Project 1/7/2020 until 1/12/2021

Site Engineer

- *Lighting and power socket units inside building supervision on installation.*
- *Underground installation for H.V & L.V cables*
- *Kiosk and Joint Box supervision on installation.*
- *Earthing system installation.*

New Sulaimani Terminal Project 12/2021 until 08/2022

Site Engineer

- *Lighting and power socket units inside building supervision on installation*
- *Power station supervision on installation.*
- *Lightning Earthing system for power station and Car shows Building*
- *Street lighting poles supervision on installation.*
- *Supervising the installation of switchgear, synchronization board, transformers and the generator of the project.*

Suli Sky Residential Project 4/2023 until 10/2023/Part Time

Supervisor electrical Engineer

- *Supervision on Electrical points (Lighting & Power) installation according to the design drawing.*
- *Supervision on low current Electrical points (Fire alarms, CCTV, internet) installation according to the design drawing.*
- *Supervision on (MDB, SDB, and DB) installation according to the design drawing.*
- * Redesign of electrical drawing after Architectural changes.*

Pak Towers Residential Project 4/2024 until 11/2024

Supervisor electrical Engineer

- *Supervising all the electrical fields including:*
- *Supervision on Electrical points (Lighting & Power) installation according to the design drawing.*
- *Supervision on low current Electrical points (Fire alarms, CCTV, internet) installation according to the design drawing.*
- *Supervision on (MDB, SDB, and DB) installation according to the Electrical Design.*
- *Redesign of electrical drawing after Architectural changes.*
